COMMONWEALTH BUREAU OF CENSUS AND STATISTICS
WESTERN AUSTRALIAN OFFICE

Quarterly Statistical Abstract

(The figures published in this Abstract are where necessary revised every quarter. Those which appear in this issue consequently supersede any contained in previous issues.)

No. 401

DECEMBER, 1966

F. W. SAYER
DEPUTY COMMONWEALTH STATISTICIAN
AND GOVERNMENT STATISTICIAN

By Authority: ALEX. B. DAVIES, Government Printer

1966

NOTES

Rounding of Figures—Many of the figures appearing in the tables have been rounded (to thousands or, in some cases, millions), without making those adjustments which would be needed to make the rounded figures add to the rounded total. It is for this reason that figures do not always add to the totals shown in the tables.

External Trade—Statistics of external trade, as published in the *Quarterly Statistical Abstract* from the March, 1966 issue onwards, are presented on a new basis.

From the 1st July, 1965, when a new Australian Customs Tariff was introduced, imports have been classified according to an Australian Import Commodity Classification based on the *United Nations Standard International Trade Classification, Revised*.

The Standard International Trade Classification (and consequently the Australian Import Commodity Classification) follows closely the "Brussels" tariff nomenclature used in the new Australian Customs Tariff. The Standard International Trade Classification consists of 10 broad commodity categories designated "Sections" and comprising 56 commodity "Divisions" which are further divided into 177 commodity "Groups." The structure of the classification serves to provide a summary of data relating to 1,312 basic items of international trade. The Sections, Divisions and Groups, and the relevant reference numbers, are shown in Tables Nos. 24 and 25.

From the 1st July, 1966, an Australian Export Commodity Classification, also based on the Standard International Trade Classification, will be adopted in the tabulation of export information.

In this issue particulars of imports during the twelve months ended June, 1966 are derived from tabulations prepared in accordance with the Australian Import Commodity Classification. The figures shown for exports during the twelve months ended June, 1966, and for imports and exports during the year ended June, 1965, are estimates derived by allocating particulars relating to individual items of trade, as recorded on the old basis, to the most appropriate commodity description in the new classification. In some cases, the descriptions of commodity Divisions and Groups, as shown in Tables Nos. 24 and 25, are abbreviations of the full text, which is available in the Australian Import Commodity Classification issued by the Commonwealth Bureau of Census and Statistics, Canberra.

Finance Companies—The summary of the principal statistics of the lending operations of corporate Finance Companies, shown in Table Nos. 55, 56 and 57, covers the operations of companies engaged mainly in providing certain credit facilities to the general public (companies and persons). Banks, insurance companies, etc. and companies providing credit to "related companies" are excluded.

The outstanding balance for a particular period cannot be verified by the addition of the amount financed to the previous month's outstanding balance, less collections and other liquidations for the period under review, owing to the amount financed being a "net figure", i.e. it excludes interest, insurance and hiring charges.

Additional information on this subject is available in the mimeographed publications *Finance Companies* issued monthly and annually by the Commonwealth Statistician, Canberra.

Population Census, 30th June, 1966—Tables Nos. 1 and 61-67 contain some early results of tabulations of 1966 Census information, together with revised estimates of population for dates and periods subsequent to the Census of 30th June, 1961.

The abbreviation "n.e.i.", where it occurs in the tables, denotes "not elsewhere included."

STATISTICS OF WESTERN AUSTRALIA

I—POPULATION AND VITAL STATISTICS

Note—Estimates of population for dates or periods subsequent to the Census of the 30th June, 1961 have been revised in accordance with the preliminary results of the Census of the 30th June, 1966. The 1966 Census figures have been compiled during the taking of the Census by field personnel and are subject to amendment. The estimates of population will be further revised when the final results of the Census become available.

The rates shown in Table 3 have been revised in accordance with the preliminary results of the 1966 Census and are subject to further revision on the basis of the final results.

Full-blood aborigines are not included in the following tables. The number on 30th June, 1961 was estimated to be 10,000.

All Ports	5,070	7,175	5,189	6,027	5,519	6,450	5,551	6,214	6,258	8,804

(a) Most cargoes are recorded in terms of the ton weight of 2,240 lb. but some cargo, consisting mainly of bulky commodities, is recorded on the basis of the ton measurement, a unit equivalent to 40 cubic feet of space. Statistics are compiled accordingly in terms of "tons weight" or "tons measurement". In order to provide a ready comparison, as in this table, of the volume of cargo handled at the several ports or in different periods, the amounts recorded in the two categories have been aggregated. In Table No. 20 details of cargo handled at each port are presented separately on the basis of "tons weight" and "tons measurement".

No. 20—Tonnage of Cargo Discharged and Shipped at each Port : Twelve Months ended June, 1966

(a) Comprises Free Homestead Farms and Reserves. (b) Comprises perpetual leases, leases of reserves and leases of town and suburban lots.

VII—PRODUCTION

No. 32—Estimated Net Value of Production

Net Value of Production is the sum available for payment of wages, interest, rent, depreciation, other overhead costs, and for the producer's own income and profit. For Primary Production it is obtained by deducting from the value realized at the principal market all marketing costs and the cost of goods used in production (seed, fertilizer, pickling, sprays, dips, fodder, fuel and oil, etc.). For Manufacturing, it is obtained by deducting from the selling value at the factory door the cost of goods consumed in the process of production (i.e., materials used, fuel, power and light, lubricating oil and water, repairs to plant and buildings, tools replaced and containers and packing).

(\$'000)

Year	Agriculture	Pastoral and Trapping	Dairying, Poultry, Farming and Bee Keeping	Forestry and Fisheries	Mining and Quarrying	Total Primary	Manufacturing
1955-56	74,701	(a) 73,468	9,769	14,205	28,285	200,428	139,466

(a) Defined for basic wage purposes as the area comprised within a radius of 15 miles from General Post Office, Perth. (b) As defined in the Land Act but excluding the Metropolitan Area. (c) Special determination incorporating increase of \$2 for males and \$1.50 for females. (d) Female rate increased to 65 per cent. of male rate as from 1st December, 1951. (e) Female rate increased to 75 per cent. of male rate from beginning of first pay period commencing on or after this date. (f) On the 22nd September, 1964, The Western Australian Industrial Commission, after a comprehensive inquiry, declared the rates shown to apply uniformly throughout the State. Subsequent variations have continued to be made on this basis.

(e) Uncontested District.

(f) Includes 9,634 informal votes.

XV—BUILDING OPERATIONS

No. 51—Building Permits and Approvals

Statistics of projected building operations comprise—

(a) *Private* : Building permits issued by local government authorities to private persons and firms for operations in areas subject to building control, including houses for which financial assistance is afforded by government instrumentalities, *e.g.*, War Service Homes Division.

(b) *Government* : Contracts let or day labour work authorized by government, semi-government and local government authorities.

Prior to 1st July 1966 additions valued at \$10,000 or more were classified as "new" buildings. From 1st July 1966 alterations and/or additions valued at \$10,000 or more are included as "new" buildings. The value of land on which the projected buildings are to be erected is not included in the values shown.

No. 52—New Buildings Completed

The figures in this table cover the operations of all builders who accept contracts for the construction of new buildings, "day labour" building by governmental agencies and the activities of "owner-builders." The term "Owner-built" refers to buildings actually erected by the owner or under the owner's direction without the services of a contractor who is responsible for the whole job.

The value of land on which the buildings were erected is not included in the values shown.

(a) Charges, etc. which are accrued and unpaid at the end of period concerned are included. (b) Amounts shown in this column are intended to provide a measure of total balances outstanding. It should be noted, however, that movements in this aggregate may also involve changes in the proportions of the two components of the series to the total.

XVIII—MOTOR VEHICLE REGISTRATIONS

In Western Australia there is no single authority responsible for the licensing of vehicles. The Traffic Branch of the Police Department licenses vehicles in the Metropolitan Traffic Area as defined in Regulations made under the Traffic Act, 1919-1965. Outside the Metropolitan Traffic Area each Town or Shire Council is responsible for the licensing of vehicles in its own district.

XX—POPULATION CENSUS: 30th JUNE, 1966

The tables in this section contain some early results of the Population Census taken on the 30th June, 1966. The figures were compiled during the taking of the Census by field personnel and are subject to amendment.

Estimates of population for dates and periods subsequent to the Census of the 30th June, 1961 have been revised in accordance with these preliminary results and will be further revised when the final results become available.

Particulars of full-blood aborigines are excluded throughout the tables.

EXPLANATORY NOTES

For the purpose of presenting statistics obtained at the Census of 30th June, 1966, new methods have been used in the delimitation of metropolitan areas and certain other urban centres. Briefly, these are as follows :—

- (i) Around each capital city and each town with a population of 75,000 or more *two* boundaries have been drawn.

The *outer* boundary, which is fixed, circumscribes the area in close economic and social contact with the main city or town. These areas are designated Statistical Divisions (for State capital cities) or Statistical Districts (for Canberra and some other cities).

The *inner* boundary indicates the area within which, at the time of the Census, there was a density of at least 500 persons per square mile. This density is determined for each Census collector's district (the smallest geographical area available). From Census to Census as urbanization proceeds this *inner* boundary will move outwards to encompass peripheral development. Some specified areas of lower density (*e.g.* industrial areas) are classified as urban on other grounds.

- (ii) The principal urban centre within each Capital City Statistical Division has been designated the "Metropolitan Area."
- (iii) Population clusters of 1,000 or more persons having a minimum density of 500 persons per square mile have been designated "Urban Centres."

In determining the outer boundary of each Capital City Statistical Division the aim has been to delimit, for at least two or three decades, the region expected to be in close contact with the inner urban area, after making allowances for further urban development, including satellite towns, improvements in transport, and other factors. The Perth Statistical Division comprises the area formed by amalgamation of the former Metropolitan and Swan Statistical Divisions.

A detailed statement on the concepts and criteria adopted in the delimitation of metropolitan areas and other urban centres is contained in *Field Count Statement No. 4—Population : Principal Urban Centres of Australia* published November, 1966 by the Commonwealth Statistician, Canberra.
